

Keller Williams Goes Green on Red Day!

In honor of Red Day, which was held on May 13, 2010, volunteers from Keller Williams's Rancho Cucamonga Realty Office donated their time as well as soil and plants to revitalize the existing garden at Hill View School in Bloomington. The group repaired the plant boxes, worked the soil, and planted fruits and vegetables with students. Now, as the students regularly tend to the garden, they are experiencing the joy and excitement of seeing their garden grow. Everyone is looking forward to harvesting and eating the fresh fruits and vegetables that they will watch ripen!

RED Day (Renew, Energize and Donate) is a Keller Williams Realty service initiative, a commitment to improve local communities. This was the 2nd annual RED Day community event, dedicated to their Vice Chair, Mo Anderson.
